I need one or more of you to respond to this open records request ASAP.
Amy with City Legal is scheduled to meet with Katherine to see what we
have to determine what can be released. You three were included since
you were either involved in the purchase of or any training associated
with the facial recognition technology. If you have any questions
please reach out to Katherine. If there is anyone else that has
information that ya'll are aware of please let her know as well.

Thanks,

Jeanelle

Subject: Open Records Request - Regarding Facial Recognition Software

All,

We have received the attached Open Records request for records involving Facial Recognition Technology. The request covers everything from unsolicited marketing materials, meetings, emails, contracts, policies, trainings, etc. Please forward me a copy of all records(digital and print) pertaining to any Facial Recognition Technology as soon as possible since we are on a deadline to submit to the AG. (This would include the LPR system since it has facial recognition) If you know of anyone that would have responsive documents for this ORR, please forward to them and let me know.

Thank you,

Katherine Wilkinson

Records System Manager
